Sun Dasa, Saturn Bhukti

When Saturn is fortunately situated in the birth chart, this bhukti brings happiness, moderate prosperity, and a good period in your marriage or courtship. If Saturn is in Libra or is otherwise favorably placed, you will increase your assets and achieve additional honor, authority, or community leadership. It is generally a time of sober application of talent, energy and thought. When Saturn is afflicted, or is in the 6th, 8th or 12th rasi from the Sun, it brings about troubles within your family, estrangement or separation from loved ones, and the possibility of imprisonment or long hospitalization. All affairs suffer under this bhukti; it can mark the time of a parent's death, or if Saturn is in the 2nd or 7th house, an accident. Diseases which are brought about by poor circulation or intestinal problems are common to this bhukti.

Bhukti 9 **Mercury** **Jul 20, 1961** **0.21**

Sun Dasa, Mercury Bhukti

When Mercury is in Virgo, in an angle or the 5th, 9th or 11th house, this bhukti brings you the respect of educated and intelligent people. You speak persuasively, with with and humor, and garner success in Mercurial pursuits. When Mercury is poorly situated in the birth chart and is located in a dusthana house, this bhukti occasions much wandering both of the mind and the body, with little profit. Your speech is apt to be slow, ill-tempered, or boring. Be careful not to be indiscreet or to be dishonest. If Mercury is in the 2nd or 7th house of the natal chart, you may have trouble with your spouse or children and watch out for accidents caused by being too hasty and for illnesses of the vocal chords and mouth.

Sun Dasa, Venus Bhukti

Venus well-placed in the birth chart, or in the rasi Cancer, marks a good time to choose a marriage partner, especially for men. For women, it indicates a time of amicable relationships with other women and a period of much pleasure. Opportunities for lavish living abound. This period favors prosperity and pleasurable pursuits. If Venus is in a dusthana house it can bring Vimshottari Dasas the displeasure of superiors, anxiety in marriage, and illicit relationships. So afflicted, Venus bhukti can mean a loss to someone in your family. If it is also associated with the ruler of the 7th house, while being a dusthana planet, be wary of an inclination to sloth, self-indulgence, inappropriate generosity or wayward thinking. When Venus is afflicted and conjunct the ruler of the 8th or 12th house, it may indicate danger of grave accidents.

Venus Dasa, Mercury Bhukti

If Mercury is well-situated in the birth chart, this is a prosperous period in all activities. It usually brings the company of cheerful, entertaining and witty people, much pleasurable travel and enjoyment of cultural pursuits. When afflicted, Mercury in this bhukti denotes the possibility of dismissal from your job, loss of reputation through gossip, or the indulgence in gossip to deleterious effect. Often you spend some time away from home which you find unpleasant or unsatisfactory. If Mercury is in the 2nd or 7th house, it may denote illness.
